Personal History

It's a privilege to spend time with your children next year! I have enjoyed home schooling my own two boys and have also taught and worked with other home schooled children through the years. My degree in Elementary Education, concentrating on life sciences, is from the University of Tulsa in Oklahoma. I accepted Christ as a college freshman, and began a life-long journey to know Him and to make Him known. My passion is helping children see God's hand in their life and in their world. Science and history provide beautiful opportunities to do both!

History: Expansion and Colonization

This year we will start our exploration of the world beginning with the exciting and turbulent 1600's. Come with us as we explore the kingdoms of Europe, Asia, the Far East, North and South America! Mine for gold (but beware of a cave-in), sumo wrestle (with your thumbs!), attend a masked ball with the Sun King of France and so much more! We will use The Story of the World, Book 3: Early Modern Times. For confident readers, reading will be assigned each week. For the beginning reader, a CD is available for listening. The class will include time for geography, a history story, and a special activity each week. Each week there will also be optional coloring pages, projects or games to play that correspond with the lesson.

Required Text or CD: The Story of the World Volume 3: Early Modern Times by Susan Wise Bauer: Peace Hill Press

Available at the Home School Building bookstore or on-line

Materials fee: \$18.00 per student

One 3-ring 1-1/2" binder

Science: Swimming Creatures of the Fifth Day

Get ready to "jump in" and immerse yourself in the oceans and fresh-water seas of Planet Earth. We will be exploring the nooks and crannies of tidal pools, coral reefs and the ocean depths. Class time will consist of learning through reading, video clips and narrating what we have read. Students will keep a science notebook with their illustrations and writings, as well as accomplish fun experiments corresponding to the lesson. Your children will also create wonderful sea animals for their own ocean box.

Required Text: Exploring Creation with Zoology 2: Swimming Creatures of the Fifth Day by Jeannie Fulbright: Ap-
pologia Educational Ministries, Inc.

Available at the Home School Building bookstore or on-line

Materials fee: \$10.00 per student

One 3-ring 1" binder
